The platform for  
auditing your digital  
footprint

# The problem

People are not aware of how much personal information they leave on the internet

## For individuals:

- Cybercriminals can **steal your identity**, do **phishing attacks**.
- Sensitive information can be leaked, leading to **financial losses** or **reputation damage**.

## For companies:

- Public figures are prime targets for **doxxing** and cyber **harassment**.
- **98%** of cyber-attacks use Social Engineering (mostly Phishing).
- Total cost of data breaches around **\$4.88 million** in 2024.
